

10 HELPFUL TIPS

FOR BETTER WATER CONSERVATION

- 1 Cut irrigation to 2 to 3 days per week
- 2 Water only after the top inch of soil is dry.
- 3 Reset irrigation controllers and replace batteries in the spring and fall
- 4 Use a Watermiser Waterbroom broom or blower instead of a hose to clean driveways and sidewalks.
- 5 Adjust sprinklers to prevent overspray and run-off.
- 6 Add 2" to 3" of mulch around trees and plants to reduce evaporation.
- 7 Install water efficient drip irrigation systems for trees, shrubs, and flowers to distribute water more efficiently.
- 8 Upgrade to a "smart irrigation controller" that automatically adjusts watering times for hotter weather.
- 9 Replace a portion of lawn with California friendly plants. (Plants do best when planted after winter rains begin.)
- 10 Utilize the water Authority's Smart Landscape Program to upgrade irrigation hardware.
